Commandes fréquemment utilisées dans tous les TP:

```
composer create-project --prefer-dist laravel/laravel Maisonneuve2395393
```

```
create database maisonneuve_hub_db
```

```
php artisan make:model Etudiant -m
```

```
php artisan make:model Ville -m
```

```
php artisan migrate
```

```
php artisan make:factory EtudiantFactory --model=Etudiant
```

```
php artisan make:factory VilleFactory --model=Ville
```

```
php artisan tinker
```

```
\App\Models\Ville::factory()→times(15)→create();
```

```
\App\Models\Etudiant::factory()→times(100)→create();
```

```
php artisan make:controller EtudiantController -m Etudiant
```
